PRESS RELEASE

For Immediate Release

AERIE ENGINEERING

GREENVILLE, SC – November 19, 2008 – Aerie Engineering, a flexible, full service engineering firm that provides a broad range of technical services, has been named the November Small Business of the Month by the Greenville Chamber of Commerce.

Each month, the Chamber honors the dedication and accomplishments of one of Greenville's outstanding small businesses that has been in business for at least five years. Aerie Engineering was given this distinction for its excellence in business practices and its leadership and involvement in the community.

"The Greenville Chamber has a long-standing practice of honoring star performers in the business community through nominations submitted by our membership. Small businesses are chosen based on their economic and community impact, financial performance, workplace environment, industry and Chamber involvement," says Cam Larson, Manager of Communications at the Greenville Chamber of Commerce.

About Aerie Engineering Services:

Aerie Engineering is a technical services provider. Founded in 1998, Aerie Engineering is dedicated to providing responsive, customized and flexible services to its clients across a variety of industries, including the manufacturing, educational, healthcare, and utilities sectors. Services include machine and manufacturing equipment design, drafting, document management, software development, project management and process analysis, technical writing, technical staffing, and knowledge capture. Aerie Engineering is a SC Certified Woman-Owned Business and is SC DOT WBE Certified. For more information, contact Aerie Engineering at 864-527-5500 or visit www.aerie-corp.com.
